---

### ♦ Professional Summary

DevOps Engineer and Full-Stack Developer with 9+ years of experience in web and backend development, cloud infrastructure, and server management. Proven expertise in Laravel, Express.js, PHP, Node.js, MongoDB, MySQL, and AWS. Skilled in designing scalable systems, integrating third-party APIs, and leading projects from concept to deployment.

---

### ♦ Technical Skills

- **Languages:** PHP, JavaScript (Node.js), HTML/CSS, SQL
  - **Frameworks:** Laravel, Express.js
  - **Databases:** MongoDB, MySQL, RDS
  - **DevOps:** AWS (EC2, S3, RDS), Ubuntu, Nginx, Supervisor, Shell scripting
  - **Tools:** Git, Stripe, WebSockets, Queue Workers, CRON Jobs, PDF Tools
  - **Other:** RESTful APIs, AI Integrations, CRM Integrations, eCommerce Systems
- 

### ♦ Professional Experience

#### ♦ Xenex Media

*Senior Full-Stack & DevOps Engineer | 2019 – Present*

- Lead development and infrastructure setup for multiple full-stack projects.
- Configured and maintained AWS services (EC2, S3, RDS) and Linux servers.
- Worked extensively on PDF generation tools, campaign modules, and CRM integrations for iCentra.

- Handled DevOps lifecycle including pem keys, security groups, and CI/CD.

#### ♦ **CodeBrisk**

*Software Engineer | 2018 – 2019*

- Developed dynamic web apps using Laravel and integrated backend services with cloud platforms.
- Built REST APIs and implemented job queues and scheduling.

#### ♦ **PaperPk Technologies**

*Web Developer | 2015 – 2018*

- Worked on legacy codebases and helped modernize applications using modern PHP practices.

---

### ♦ **Key Projects**

#### **WellB**

- AI-driven app and web platform using **Express.js, MongoDB, WebSocket, Stripe**
- Built scalable APIs hosted on Ubuntu servers

#### **iCentra**

- Built with **Laravel, RDS MySQL, S3, Queues & Supervisor**
- Integrated Australian CRMs (EagleAgent, VaultRE, LockedOnCloud, Rex)
- Frontend tools for PDF design and campaign management

#### **RealGiving**

- E-commerce platform (Web & App)
- Backend: **Express.js, MongoDB**

- Feature-rich store and deals management

### **FreshFeelz**

- Full-stack **eCommerce** system for products and deals
- User & referral system for promotions

### **Swapco**

- Product-swapping and task-exchange platform
- Emphasized user collaboration and task sharing

### **PropVesting**

- Real estate tool using **Domain CRM** to estimate rent/sale property values
- AI-generated prompts and property insights

---

## ♦ **DevOps Experience**

- Full server setup on **Ubuntu** for all major projects
- Configuration of **AWS EC2, S3, RDS**, and **security groups**
- Installed and managed environments with **PHP, Node.js, MySQL, Nginx**
- Maintained server security with pem keys and keyphrase protection

---

## ♦ **Education**

### **Bachelor of Science in Information Technology (BSIT)**

University of Sargodha | 2010 – 2014

### **Intermediate (Pre-Engineering)**

GOVT A.M. College, Sargodha | 2008 – 2010
